Mr. Wade,

This correspondence serves to request that you immediately remove and correct a recent defamatory comment you made regarding me on Twitter. Your Tweet was posted publicly on 13 May 2021 at the following link: <https://twitter.com/TheWouston/status/1392908438485671942> and a screenshot of your defamatory comment is attached to this email.

In the comment you stated that "Rick Rynearson... lost his security clearance for using Air Force computers to stalk federal judges" which is a false statement that you know to be false.

Beyond having no evidence for your false claim, you are aware that in the Air Force my security clearances were temporarily suspended and then reinstated and were not lost. Further, you know that my security clearances were suspended for refusing an unlawful order and not for stalking any federal judges. Your statement that I have stalked federal judges is false, the Air Force never accused me of stalking federal judges, and no person has accused me of stalking a federal judge or federal judges other than you in your knowingly false claim.

You are aware that your statement is false because you are already familiar with the documents detailing the suspension and reinstatement of my security clearances by the Air Force and which are found here: <https://view.publitas.com/6501d2fe-ca43-49b2-9b63-e673dc3d03f7/afcaf-foia-results-for-maj-richard-rynearson/>

Your statement damages my reputation among neighbors in the community and more broadly online. I request you immediately cease and delete your defamation and issue a correction to your defamation as prominently as you have employed it to include publicly on Twitter.

Sincerely

Richard Lee Rynearson III
